Who Are We?

*Hizmet Teknik Hırdavat SAN. TİC.
LTD. ŞTi.*

With its 29 years of knowledge and experience in the Cutting Tools sector, which includes Machine Tool Inserts, Holders and Measuring Instruments. It provides solutions to its customers through Marketing, Sales, Logistics, Technical Support, Accounting and IT departments.

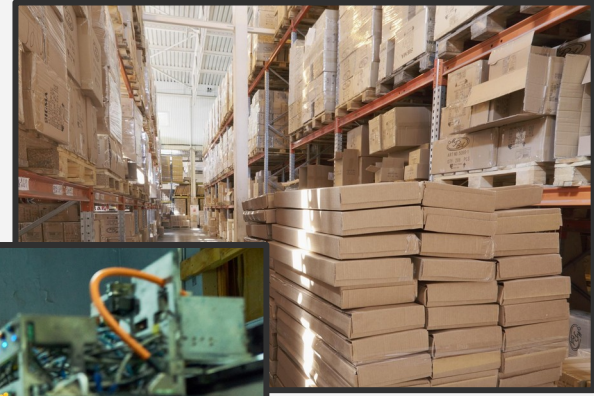

Our Understanding of SERVICE

(Hizmet=Service in Turkish)

Our commitment to contribute to productivity lies at the heart of our understanding of service.

For this reason, in order to support our customers to continue their manufacturing processes more efficiently we provide the following services:

- Delivery directly from our stocks
- Timely Delivery with our vehicles (in Istanbul)
- Technical support

TURNING

Internal turning capability starting from a minimum diameter of 8 mm

A wide range of products offers, rough, medium rough and finish surface treatment alternatives...

Special product model types for impact and non-impact materials

Specific solutions related to your other general and special needs...

MILLING

Possibility of machining with inserts from diameters 8, 10, 12

High efficiency product variety in finishing, intermediate roughing and roughing operations, alternative insert presentations according to the raw material to be processed

A variety of carbide milling cutters that allow processing materials with a hardness of 45-55-70 hrc...

Specific solutions related to your other general and special needs...

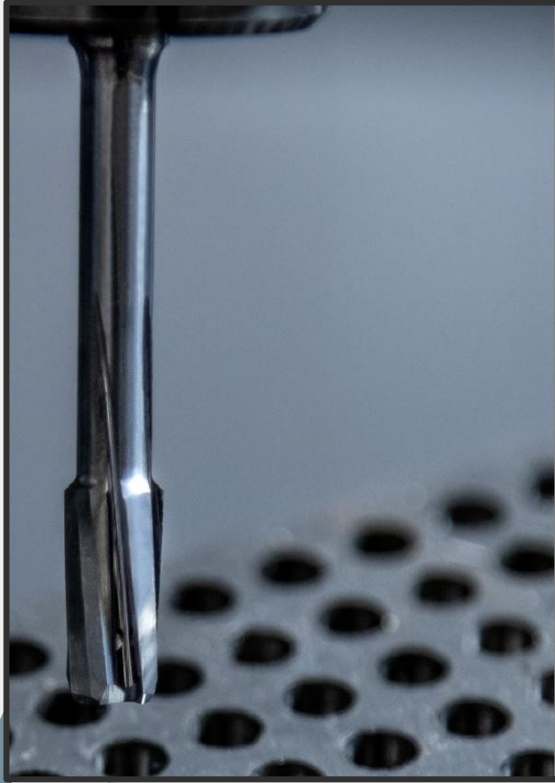

DRILLING

Possibility to present products to air steel, cobalt air steel and carbide properties in drilling operations

Drilling operations with insert bits from 12.5 mm diameter to 60 mm diameter in U-drill groups, u-drill bit variety according to the properties of the material to be processed...

Specific solutions related to your other general and special needs...

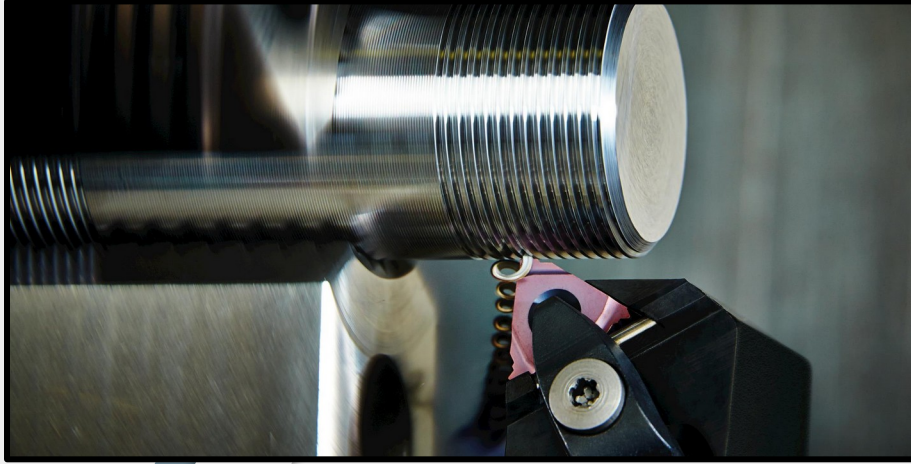

DRILLING AND REAMING

Adjustable boring bars and bits from minimum diameter 20 to maximum diameter 130 that can be used in rough boring operations...

Variety of hss, hss-co, and carbide reamers for boring in precise tolerance range...

Specific solutions for all your other general and special needs...

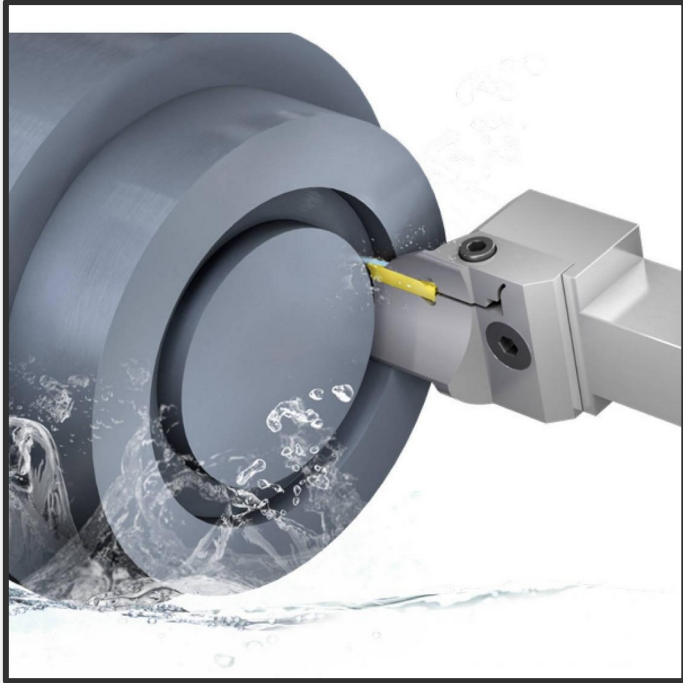

THREADING

Variety of threading inserts, which offers the opportunity to thread in different screw thread standards such as Metric (NPT) , Withworth (BSPT-BSPT)...

The range of products varies from metric 0.5 diameter fluteless taps to taps of standard threading operations...

Specific solutions for all your other general and special needs...

CUTTING AND GROOVING

Ability to cut materials up to 80 mm diameter, Special cutting tools for sliding head machines

Wide range of products that can be used in inner diameter, outer diameter and face operations...

Specific solutions related to your other general and special needs...

MEASUREMENT & CONTROL

Variety of calipers according to the dimensions of your work

Setting Zero Point control and sensitivity measuring devices

Limit or Go/No-Go Gauges and offerings of measuring devices for your desired tolerance range...

Specific solutions related to your other general and special needs...

HOLDER SETS

Product range suitable for BT, SK, DK (Manual Bench) machine specifications, ER 8-11-16-20-25-32-40 collets and bearing gripper collets.

Safe machine tap holders that prevent tap fraction...

Tool holders and fixtures suitable for tool types such as screw clamp, weldon, collet etc

Our Services,
Empowers your Competitive Power.
